Laboratory Policies

STAT POLICY

All work in the Seymour Health Laboratory is performed either STAT or ROUTINE. All work ordered from the Urgent Patient Care Center (UPCC) is considered STAT unless indicated otherwise by the patient's physician.

In the interest of efficient utilization of laboratory personnel and equipment, all laboratory tests performed in-house may be ordered STAT and reported out no longer than one (1) hour from receipt of specimen. See the list of tests available as STAT at Seymour Health UPCC Laboratory in Appendix A. Tests marked as ASAP will be processed within two (2) hours from receipt of specimen. Routine tests will have a turnaround time of one (1) working day, with the exception of those tests not performed in-house and sent to a reference lab.
